OPT OUT

Abstract

Importance The 2009 Family Smoking Prevention and Tobacco Control Act required the US Food and Drug Administration (FDA) to issue a rule requiring graphic warning labels depicting the health consequences of smoking for prominent placement on cigarette packages and advertising. The tobacco industry filed a lawsuit against the FDA claiming that the required graphic labels constituted compelled speech in violation of First Amendment speech rights, and courts ruled for the tobacco industry. Subsequently, the FDA thoroughly redesigned the graphic labels and issued a revised rule, but the tobacco industry immediately filed a similar lawsuit against the FDA again on First Amendment grounds.

Observations This article examines the delicate balance between First Amendment speech rights vs the right of the public to receive truthful, accurate, and

The politics of consciousness

It is a distinction often reserved for human beings. This remains the original and most common usage of the term. For Marx, consciousness describes a person's political sense of self. That is, consciousness describes a person's awareness of politics.

Declaration of Independence

July 4, 1776

We hold these truths to be self-evident, all men are
created equal, that they are endowed by their Creator
with certain unalienable Rights, that among these are
Life, Liberty and the pursuit of Happiness .-That to
secure these rights, Governments are instituted among
Men, deriving their just powers from the consent of the
governed, -That whenever any Form of Government
becomes destructive of these ends, it is the Right of the
People to alter or to abolish it, and to institute new
Government, laying its foundation on such principles
and organizing its powers in such form, as to them shall
seem most likely to effect their Safety and Happiness.

Universal Declaration of Human Rights

December 10, 1948

Article 4 No one shall be held in slavery or servitude;
slavery and the slave trade shall be prohibited in all their
forms.

Article 29 1. Everyone has duties to the community in
which alone the free and full development of his
personality is possible.

ALL MEN
ARE
CREATED
EQUAL

When ever any form of Government becomes destructive of these ends, it is the Right of the People to alter or abolish it

CITIES OF THE FUTURE

"What we have to do is to design a city as a living system, as an organism, as a university, that all the cities of the future will be university cities that grow, that continue to exchange ideas. The city will have a built-in transportation system so there are no accidents and no unthought out areas of technology, medicine, botany, agriculture, the total system: one planning system."

- **Jacques Fresco (1906-2017)**
 Founder of The Worm Project

Pseudocommunity

- The first response of a group in seeking to form a community is most often to try and fake it
- The members attempt "instant community" by being very pleasant and avoiding all disagreement
- This pretence of community never works-people want to be seen as caring or loving by telling little white lies
- The essential dynamic here is avoidance of conflict

4:58 68%

"We have to distinguish between a man as he is in essence, and as he is in ego or personality. In essence, every person is perfect, fearless, and in a loving unity with the entire cosmos; there is no conflict within the person between head, heart, and stomach or between the person and others. Then something happens: the ego begins to develop, karma accumulates, there is a transition from objectivity to subjectivity; man falls from essence into personality." (Interviews with Ichazo, page 9)

HOW MANY TREES DOES IT TAKE TO...

...offset the food you eat?

About 15 trees offset the CO₂ from consuming a 2000-calorie diet.

...offset your fossil fuel consumption?

About 730 trees offset the average CO₂ released for each person's fossil fuel usage.

WHAT DOES A METRIC TON OF CO₂ ACTUALLY LOOK LIKE?

As an environmentalist, you probably know that reducing CO₂ emissions is the best way to slow global warming. But what does a metric ton of CO₂ actually look like? Here are some examples:

8.12 METER CUBE

At standard pressure and 15 °C the density of carbon dioxide gas is 1.87 kg/m³. One metric ton of carbon dioxide gas occupies 534.8 m³.

1 HOT AIR BALLOON

One metric ton of CO₂ is roughly the size of an air-filled hot air balloon. This size of air balloon is able to fit one passenger in the basket.

3500 BATHTUBS

The capacity of a typical bathtub is 0.18 Cubic Meters.

75,000 BASKETBALLS

A NBA official ball, manufactured by Spalding, is a size 7 ball and measures about 0.0075 m³ (0.0075 cubic meters).

1 TREE

It takes a single tree roughly 40 years in order to absorb 1 metric ton of CO₂.
